**Babies in the Womb are "Pre-Born" ...Not Unborn**  
Well chosen words have power.  
The term "unborn" creates a problem, because it is somewhat vague. It gives the reader or listener an image of someone who is not born and perhaps, never will be. Pre-born, on the other hand, gives an image of someone who is already in existence, and is waiting to be born. It gives a more human and realistic description of the baby developing right here and now. It describes a very real person who is living and breathing in the present--not the future.
