**LIVING WITH MENTAL ILLNESS**  
 Mental illness is cyclical, where a person experiences periods of stability interrupted by times of instability. With effective treatment and support, many people with mental illness are able to lead relatively normal lives, and their illness may not be evident to others.  
 For people in our communities who live with severe and persistent mental illness, it can be significantly debilitating. Mental illness impacts self-esteem, relationships, and the ways in which an individual participates in school, work and the community.

**St. Scholastica's Vocations Department** will host a free ZOOM talk with the director (Sister Kimberly) for any vocation seekers who want to learn more about the Benedictine way of life. Will take place every Tuesday at 7:30 PM.

**VBS** this summer is planned for the week of July 9-13. It will be held at the Methodist Church. Hoping for helpers from our parish including older youth.

**Subiaco Academy** still has a few openings for next school year.
